

CITY OF CRESSON, TEXAS

REQUEST FOR COMPETITIVE SEALED PROPOSALS FOR SOLID WASTE COLLECTION & DISPOSAL

ADDENDUM NO. 2

Issued:

Proposal Due Date: September 10, 2026, at 12:00 P.M.

This Addendum No. 2 is issued to clarify and modify certain provisions of the City of Cresson's Request for Competitive Sealed Proposals for Solid Waste Collection & Disposal ("RFP"). This Addendum is incorporated into and made part of the RFP and Contract Documents. In the event of a conflict between this addendum and the RFP, this Addendum shall control.

The proposal deadline remains unchanged.

1. What is the current trash rate the city is being charged by the existing provider for residential customers, excluding franchise fees?

The current rates are 1 toter \$17.15, 2 toters, 3 toters \$36.97. Recycling is \$228.34 plus weight.

2. What are the current rates your provider is charging businesses within the city?

The City currently estimates approximately 60 commercial accounts. Because commercial customers contract and are billed directly by the City's current provider, the City does not possess a reliable breakdown of those accounts by container size, collection frequency, or Commercial Hand Collect classification.

Proposers should therefore submit complete rates for each container size, service frequency, and service category requested in the Commercial Rate Schedule. The quantities stated in the RFP are estimates only and do not constitute a guarantee of any minimum number of commercial accounts, containers, collections, or revenues.

3. Is the agreement exclusive and what services are included? I don't see any language stating the agreement is exclusive.

The statement in Section I.1 that commercial waste is currently managed directly with Cresson's preferred provider describes the City's current arrangement only.

Subject to adoption of any required ordinance, execution of the Contract, and applicable statutory transition rights, the selected Contractor will be the City's exclusive provider of commercial and industrial solid waste collection services within the corporate limits of the City, including front-load, roll-off, open-top, and compactor services.

The existing preferred-provider arrangement will not operate independently of the new exclusive arrangement after completion of any transition period required by applicable law.

4. Can you request and provide annual tonnages for the following services

Residential Trash and Bulk combined was 728 tons for 2025.

5. Are the proposers for the RFP providing commercial/industrial rates with or without franchise fees?

The proposers should provide rates including the franchise fees.

6. Are there any business parks or commercial construction projects planned within the next 5 years?

There are several subdivisions within the Cresson City Limits that have been plated with designated General Commercial lots. The City does not have a timeline for if or when construction will start on those lots.

7. What is the list of city events held each year in which we could participate?

The City does not currently have any city sponsored events.
